EDUCATION SECRETARIAT

Sanctions the opening of four hundred new Primary Schools during the year 1945-46 and also the appointment of seven Assistant Inspectors of the grade

control of Primary Education was resumed by Government as per Elementary Education Act VI of 1941 and directing, among others, that the two-teacher schools might be split up into single-teacher schools if the demand for schools in rural areas be great and that if the strength justifies, one extra teacher might be given to such schools during the year 1942-43.

2. Letter No. E. 4415—Edn. 126-41-21, dated the 14th May 1942, from the Secretary to Government, General Department, to the Director of Public Instruction, directing that action might be taken to open 250 new Primary Schools with 375 teachers by June 1942, being the second year expansion programme of Primary Education during the year 1942-43.

3. Government Order No. E. 5104-5—Edn. 62-42-18, dated the 7th June 1943, sanctioning the opening of 375 single-teacher Primary Schools during the year 1943-44 towards the third year expansion programme of Primary Education.

4. Government Order No. E. 5857-3—Edn. 42-43-14, dated the 22nd May 1944, sanctioning the opening of 400 new Primary Schools during the academic year 1944-45 towards the fourth year expansion programme of Primary Education in addition to 1,096 new Primary Schools opened during the three years from 1941-42.

5. Correspondence ending with letter No. P4. 2567-124 of 44-45, dated the 22nd February 1945, from the Director of Public Instruction in Mysore, in the matter of further expansion of Primary Education in the State.

ORDER No. E. 5790-91—EDN. 93-44-6, DATED BANGALORE, THE 26TH MAY 1945.

The four-year programme of expansion of Elementary Education initiated in the year 1941-42 stipulates that all villages or groups of villages with a population of 500 and above in the maidan and 300 and above in the malnad should be provided with Primary Schools. Though the target fixed under the scheme was the opening of 1,000 Primary Schools by the end of the fourth year, 1,096 schools were opened during the first three years and sanction was also accorded to the opening of another 400 schools during the current year.

The Central Board for Elementary Education have recommended to Government by a resolution passed on the 8th May 1944 that, for the next plan for expansion of elementary education in the State, all villages or groups of villages with a population of 300 and above in the maidan and 200 and above in the malnad may be given primary schools provided the villagers come forward with suitable and free buildings. The Director reports that there are still about 400 schools to be opened before the objective of providing a school in each of the villages or groups of villages with a population of 500 and above can be said to have reached.

meals and that buildings estimated to the extent of Rs. 5,53,000 apart from the promised donations of Rs. 1,47,000 have been put up by public philanthropists in villages with the expectation of getting schools. As a result of the increasing interest evinced by the Parent Teachers' Associations which number about 1,600, larger and regular attendance of pupils is stated to have been secured and the number of languishing schools appreciably reduced. The Director states that there are a little over six lakhs of children of school-going age out of school, and though the Elementary Education Act, 1944, might ensure the continuance of the pupils who have joined the school, it is necessary to continue the expansion of elementary education at least at the present rate, so that the ground may be steadily and effectively prepared for the eventual enrolment of all children of the prescribed age on compulsory basis and the goal of universal, free and compulsory Primary Education may be reached by gradual stages within a measurable length of time. He has, therefore, recommended sanction to the opening of 400 Primary Schools during 1945-46 to meet the needs of villagers with a population of 500 and above and the appointment of 7 Assistant Inspectors of the grade Rs. 100--7--170 and has promised that a scheme for further expansion of elementary education to provide schools to villages with a population of 300 and above from the year 1946-47 will be submitted separately. The present proposal of the Director involves an expenditure of Rs. 1,24,850 recurring and Rs. 65,740 non-recurring as detailed in the statements appended.

The implementing of the Elementary Education Act, 1944, which was passed with the object of eliminating waste by enforcing the attendance of pupils till the completion of the course, no doubt involves expenditure but on this account Government consider that the policy regarding the expansion of Elementary Education need not be affected.

In the circumstances, the recommendation of the Director to open 400 Primary Schools during the year 1945-46 is sanctioned with the modification that four Assistant Inspectors of the grade Rs. 35--3--65--5--100 be given. Necessary provision will be made in the budgets of the department for the next and subsequent years.

The proposed scheme for the further expansion of Elementary Education promised by the Director of Public Instruction is awaited.
